PROFESSIONAL SUMMARY

Computer Science graduate with experience in Java, Python, Spring Boot, React.js, SQL and REST API development. Built full-stack applications and an AI-powered desktop voice assistant integrating speech recognition and OpenAI services. Comfortable designing backend systems, working with relational databases and developing maintainable software through academic, internship and personal projects.

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript, HTML5, CSS3, C
Backend: Spring Boot, Hibernate, JPA, Servlets, JSP, REST APIs, JWT Authentication
Frontend: React.js, Bootstrap
Databases: MySQL, MongoDB
AI & Automation: OpenAI API, SpeechRecognition, Prompt Engineering
Developer Tools: Git, GitHub, Maven, Eclipse, VS Code, Postman

PROJECTS

AbhiNOW — Ride Sharing Platform Spring Boot — React — MySQL

- Designed REST APIs for authentication, ride booking and profile management.
- Integrated a React frontend with a Spring Boot backend using JSON-based APIs.
- Implemented JWT-based authentication and followed a layered architecture using controllers, services and repositories.
- Validated APIs using Postman and managed source code with Git.

Bujji — AI Voice Assistant Python — OpenAI API

- Built a desktop voice assistant capable of understanding spoken commands and generating AI-assisted responses.
- Integrated speech recognition, text-to-speech, browser automation, news retrieval and desktop utilities.
- Organized the application into reusable Python modules and published it on GitHub.

BookSwapX — Book Exchange Platform Java EE — MySQL

- Developed an MVC-based web application using Java Servlets, JSP and Bootstrap.
- Implemented CRUD operations and database-driven workflows for users, books and exchange requests.
- Applied object-oriented design principles to keep the application modular and maintainable.

INTERNSHIP

AICTE Edunet Foundation — MERN Stack Intern

- Contributed to the development of a Personal Finance Manager web application.
- Worked on feature implementation, debugging, API integration and testing within a collaborative team.

EDUCATION

Bachelor of Technology (Computer Science and Engineering)

Malla Reddy College of Engineering for Women
CGPA: 7.71

2021–2025

COURSEWORK

Data Structures and Algorithms • Object-Oriented Programming • Database Management Systems • Operating Systems • Computer Networks • Artificial Intelligence

CERTIFICATIONS

AICTE Edunet Foundation Internship • NPTEL Cloud Computing • NPTEL Computer Networks and Internet Protocol • NPTEL Introduction to Internet of Things
